

# Runwaiz

A new airports / airlines collaboration for safer and smarter operations

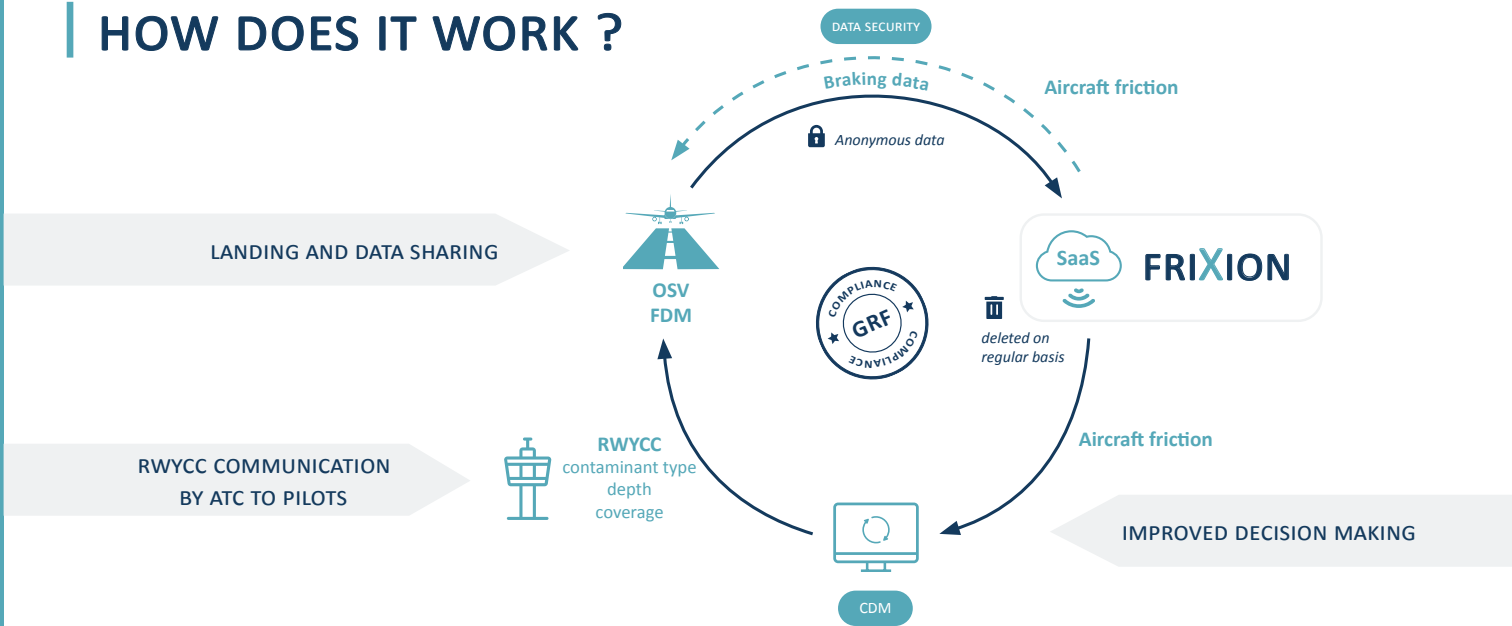

*FriXion™ improves runway conditions assessment using full potential of aircraft braking data*

## WHAT IS FRIXION ?

- fr*ixion* is a **software solution** which provides **automatically** the most **representative** and **accurate** picture of the runway **friction conditions**
- fr*ixion* smart algorithms compute **aircraft data** into third party **friction data**

## HOW DOES IT WORK ?

### BOOST YOUR OPERATIONAL PERFORMANCE

thanks to optimized rotations at airports

### ENHANCE PASSENGER AND PILOT SAFETY

by improving the approach and landing configuration and situation awareness

### REDUCE YOUR AIRLINE'S CARBON FOOTPRINT

By reducing go-arounds and diverted flights

### BOOST YOUR IMAGE

with your customers with a secure flight schedule and less delays !
